

# Charitable Gaming Taxes

Charitable gaming taxes include bingo tax, pickle card tax, county/city lottery tax, and lottery and raffle tax. The rates for state charitable gaming taxes are as follows:

- for bingo, 3% of the gross receipts from each bingo occasion;
- for pickle cards, 10% of the definite profit of each pickle card unit sold by a licensed distributor;
- for county/city lotteries, 2% of each lottery having gross proceeds of more than \$1,000 or each raffle having gross proceeds of more than \$5,000.

Forty percent of the revenue from charitable gaming taxes is deposited

in the Charitable Gaming Operations Fund. The remaining 60% is deposited in the General Fund. All unused operations funds will be transferred to the Compulsive Gamblers Assistance Fund. All lottery receipts are deposited in the State Lottery Operation Trust Fund.
